# Stainless Steel Filter Screen

## Model SSFS

A stainless steel, woven wire mesh, **Filter Screen (Model SSFS)** specifically design to use in *GILES* fryers as a direct alternative to typical disposable paper filter media.

- Helps reduce your kitchen’s waste stream ... perfect addition to support the “sustainability” efforts in your food service business.
- Cleanable & reusable ... provides on-going cost of operation savings.
- Available in sizes to fit most *GILES* fryers.
- When used with a quality filter aid powder, provides the same oil filtering & reconditioning performance as paper media.
- Features a bonded silicone edge gasket to provide an efficient suction seal to ensure proper filter pump performance.
- Easily removed for cleaning ... clean-up is simple using only hot water & a stiff bristle brush.

### Design

Woven mesh, 316L stainless steel wire, 115 micron retention rating. Laser fused edges prevents fraying ... silicone edge gasket.

Direct replacement for paper filter media.

Compliments *Giles on-board Oil Filtration System* ... the fryer filter system known for helping extend cooking oil life, can now provide additional cost savings for your operation.

A good quality **filter aid powder** must also be used when filtering for optimum performance.
